

# 46th European Calcified Tissue Society Congress

10-14 May 2019

Budapest, Hungary

## Scientific Programme

---

### Friday, 10 May 2019

Basic/Translational

Working Group

18:45 – 20:45

Mozart 2+3

### **Working Group 11: Epigenetic Regulation of Bone Formation and Homeostasis Non-Coding RNAs - Characterization of the State of the Art in Small and Long Non-Coding RNAs**

Chair: Andre van Wijnen, Rochester, United States

	<b>Long non-coding RNAs in osteogenesis</b> Speaker: Jane B. Lian, Burlington, United States	18:45 – 19:15
	<b>Biological role of microRNAs in bone homeostasis</b> Speaker: Jorma Antero Määttä, Turku, Finland	19:15 – 19:45
	<b>Epigenetic regulators of Heterochromatin during skeletogenesis</b> Speaker: Andre van Wijnen, Rochester, United States	19:45 – 20:15
P172	<b>Zebrafish crispants recapitulate BMD decrease observed in Irf5 KO, indicating they may be used for screening of BMD candidate genes</b> Speaker: David Karasik, Safed, Israel	20:15 – 20:30
P189	<b>Effects of a ketogenic diet on the progression of osteoarthritis in obese mice</b> Speaker: Maura Strigini, Saint-Etienne, France	20:30 – 20:45
